Have you read the book of Acts and thought that the meteoric growth of the church is only history? It's easy to think that way in post-Christian, post-covid Australia. But there is a church movement in Nepal that is experiencing significant, ongoing growth today through conversion. Come and meet the leader of Nepal's *Living Stone Ministries*, **Pastor Rabindra Das**, as he shares the story of what God is doing right now in this Himalayan nation through a church network that takes a holistic approach to sharing the gospel.
